

I didn't know that if you had chicken pox when you were young, you could also develop shingles later in life.

Now I know.

SHINGLES PREVENTION STUDY

The same virus that causes chicken pox can remain dormant for years and cause shingles later in life.

Radiant Research is conducting a clinical research study of an **investigational vaccine** to see if it prevents Shingles. You may qualify if you:

- are age 50 to 59
- have a history of chicken pox

Qualified participants may be compensated up to \$100 for their time and travel.
